
In this extra newsletter:

We present results from the Transval-EU project about validation of transversal (soft) skills and competences.

You can find policy considerations on incorporating transversal competencies into guidance and validation and information about new tools and methods for validating transversal competences.

Podcast: Tools and Methods for Assessing Transversal Skills

Why do we need to adjust the learning outcomes when we assess transversal skills?

[Listen to the podcast](#)

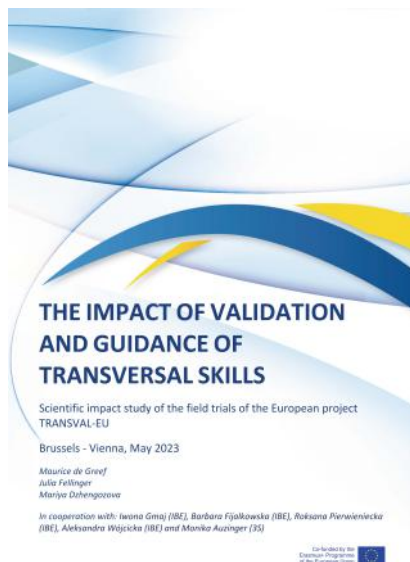

Podcast: Integrating Transversal Competences in

European Policy Strategies

How can transversal competences be included in the policy strategies at a regional, national and European level?

[Listen to the podcast](#)

The impact of validation and guidance of transversal skills

The TRANSVAL-EU project conducted trials of validation of transversal skills in Austria, Lithuania, Italy, Poland and Belgium.
